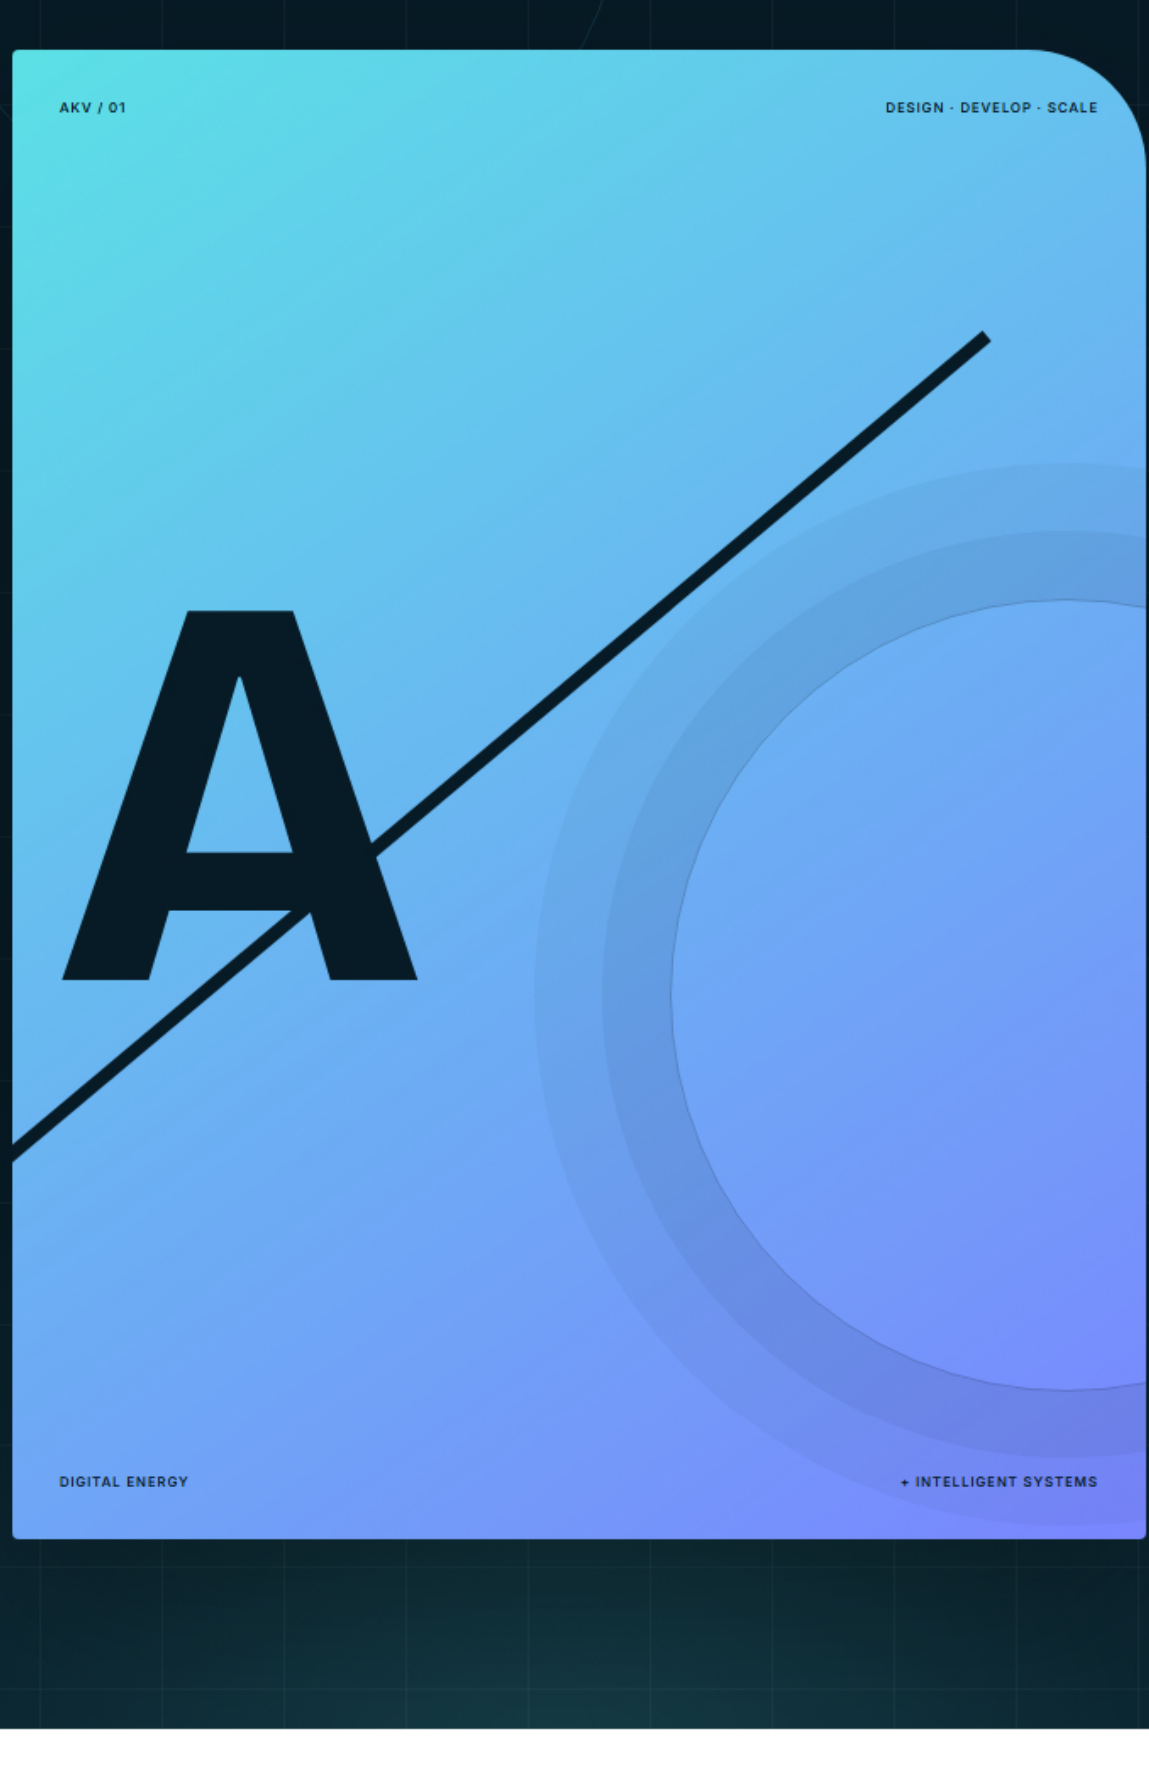
BRAND GUIDELINES / VERSION 1.0

Ideas, made intelligent.

A precise, optimistic identity for a technology partner designing products, automating systems, and building what moves businesses forward.

COMPANY	CORE IDEA	STATUS
Akviora Technologies	Clarity into momentum	Proposed system



02 BRAND FOUNDATION

Useful technology. Human momentum.

Akviora exists to make advanced digital capability practical, understandable, and valuable to growing businesses.

BRAND STORY

Ambitious ideas often stall between vision and execution. Akviora closes that distance—combining product thinking, expressive design, engineering, and automation into digital experiences that work in the real world.

From possibility to product.

MISSION

Transform ambitious ideas into practical digital products and intelligent systems that create measurable momentum.

VISION

A world where every growing business can access technology that feels clear, capable, and built around people.

01

Clarity

Turn complexity into products, systems, and decisions people can understand.

02

Craft

Treat every interaction, component, and line of code as part of the experience.

03

Momentum

Build practical foundations that help ambitious businesses move forward.

04

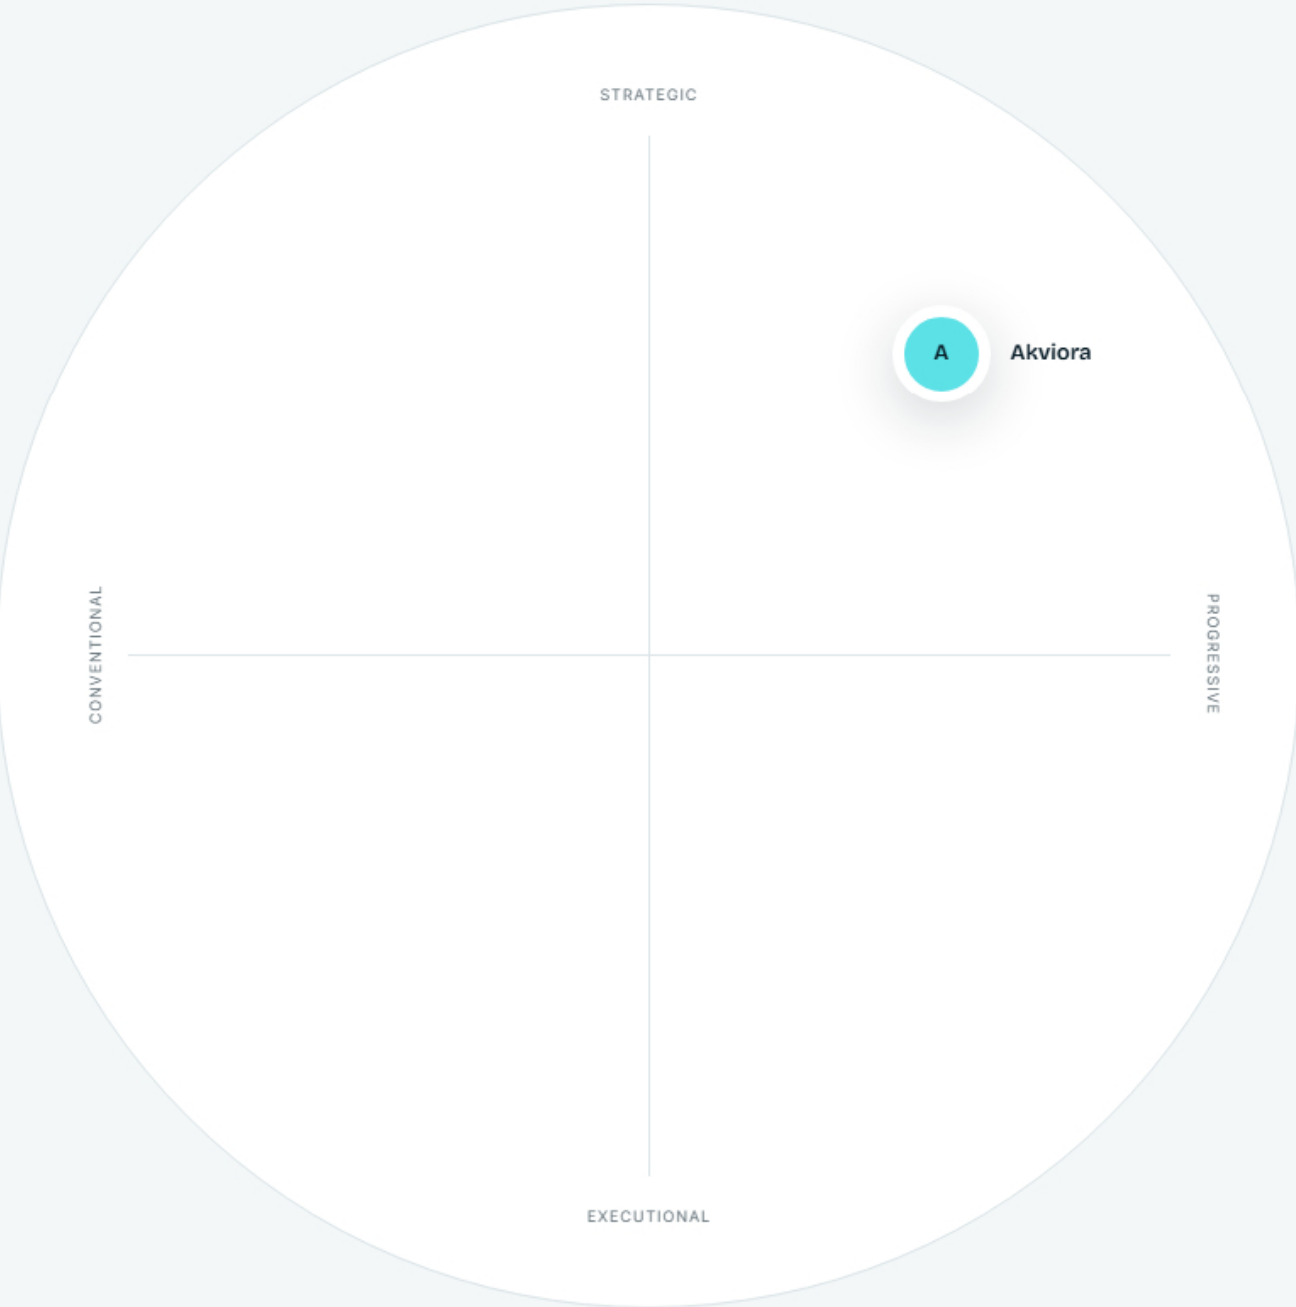
Partnership

Work openly, speak plainly, and stay accountable from idea through scale.

03 POSITIONING

The strategic center

Akviora is positioned between rigid software vendors and disconnected creative suppliers: a senior, integrated technology partner.



POSITIONING STATEMENT

For growing businesses with ambitious ideas, Akviora is the technology partner that unifies design, development, and intelligent automation to create practical digital products—without the complexity of fragmented teams.

BRAND PROMISE

We make complex possibilities feel clear and achievable.

Startups

Validate ideas, launch credible MVPs, and build foundations that scale.

SMEs

Modernize workflows, websites, and customer experiences without unnecessary complexity.

Entrepreneurs

Translate category knowledge into focused, investable digital products.

Growth teams

Add senior design and engineering capacity at moments of change.

04 PERSONALITY & VOICE

Smart enough to simplify.

The voice is assured, useful, and optimistic. It demonstrates expertise through clarity—not jargon or volume.

CAMPAIGN VOICE

Build what is next.

Short, active headlines create confidence. Supporting copy adds proof and specificity.

Intelligent, not academic	Explain the idea. Remove the jargon.
Confident, not inflated	Use evidence and decisive language; never overclaim.
Modern, not trendy	Sound current without leaning on short-lived buzzwords.
Approachable, not casual	Be warm and direct while respecting the work.

USE

"Automate the routine, so your team can focus on what moves the business."

AVOID

"Leverage our revolutionary AI to disrupt and 10× your entire enterprise."

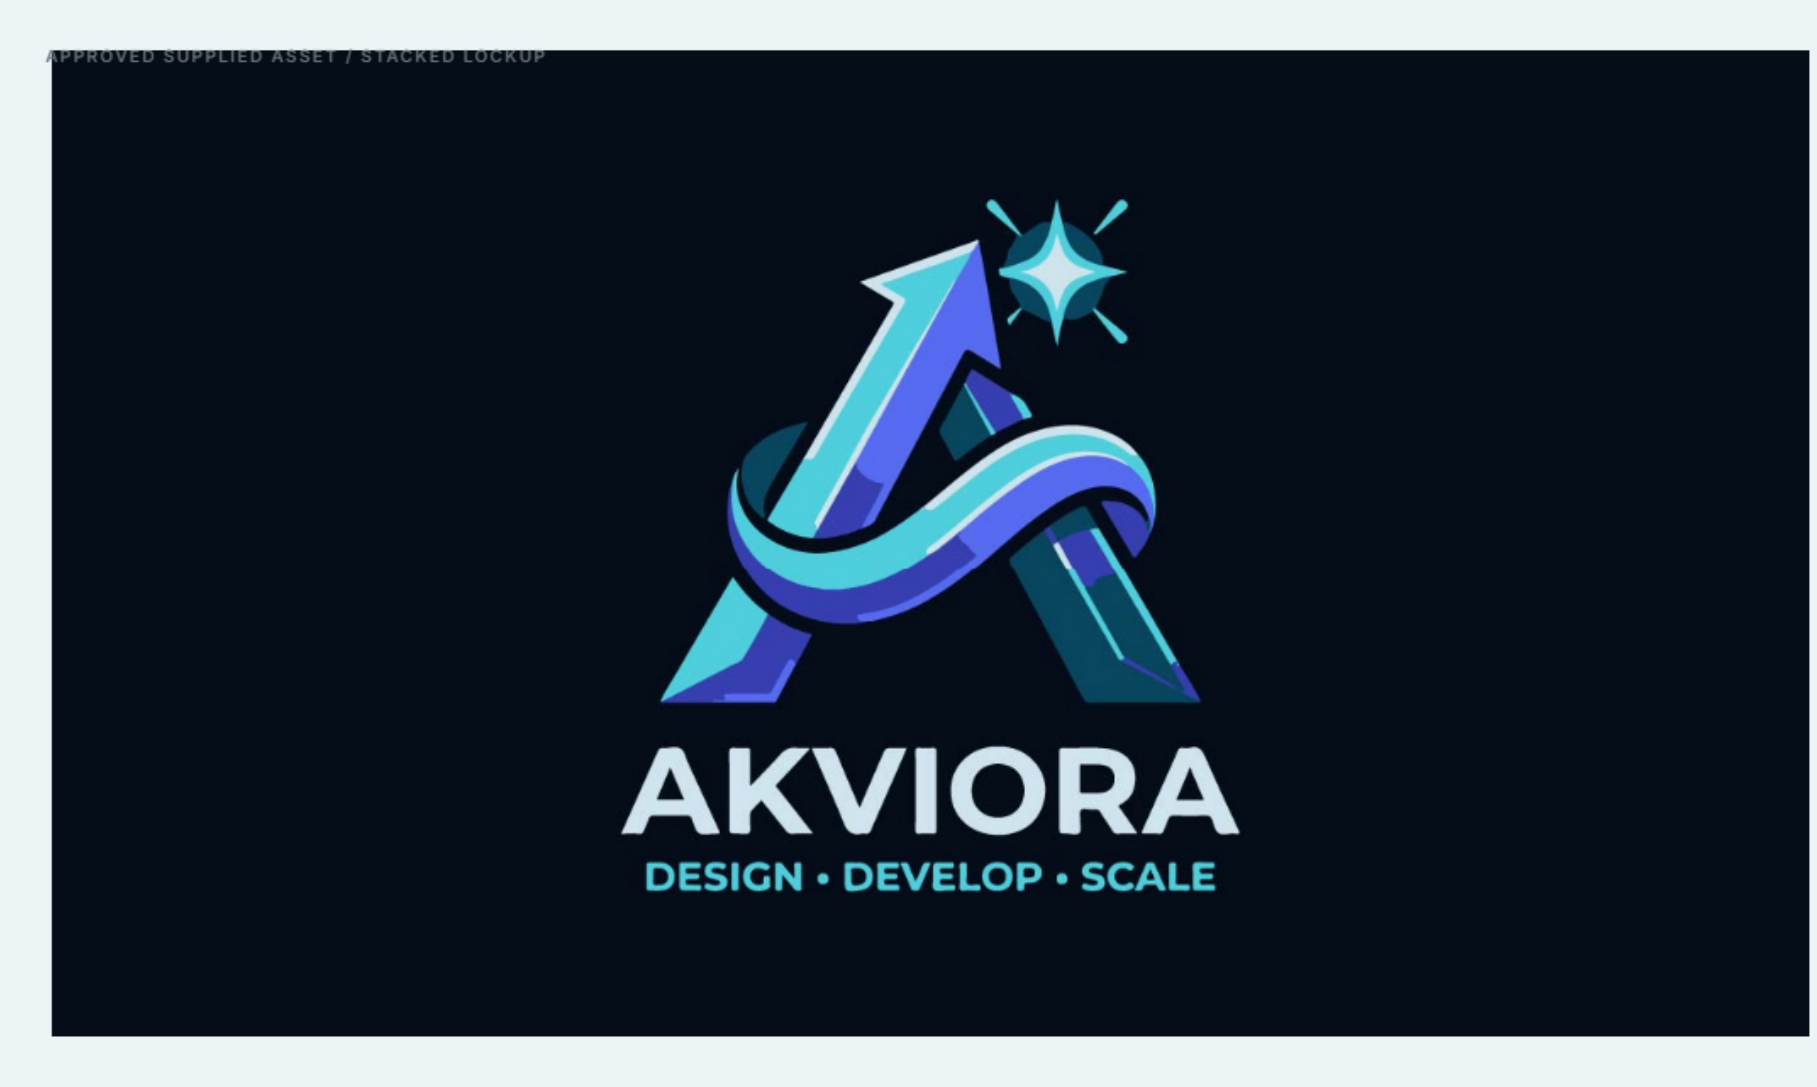
05 LOGO SYSTEM

An upward signal

The supplied mark combines an angular A, forward arrow, and bright spark. It is the approved visual source for this guideline; redraws are not permitted.

ASSET STATUS One raster stacked lockup was supplied. Horizontal and symbol-only masters should be professionally derived from approved vector artwork before release.

APPROVED SUPPLIED ASSET / STACKED LOCKUP



01 **Construction**
Preserve the relationship between symbol, wordmark, and descriptor.

02 **Clear space**
Minimum exclusion zone = the cap height of the "A" in AKVIORA.

03 **Minimum size**
Stacked: 32 mm print / 160 px digital. Descriptor may drop below 220 px.

APPROVED

Primary stacked

Use the supplied artwork for centered, high-impact placements.

PRODUCTION REQUIRED

Horizontal lockup

Symbol left; wordmark right. Maintain optical balance, not simple centering.

PRODUCTION REQUIRED

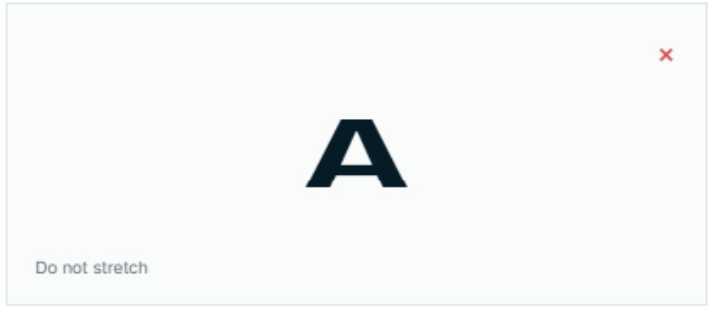
Symbol-only

For avatars and favicons only after an approved vector master is created.

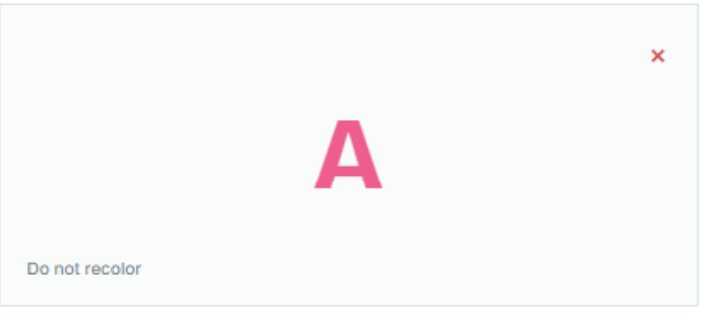
PRODUCTION REQUIRED

Monochrome

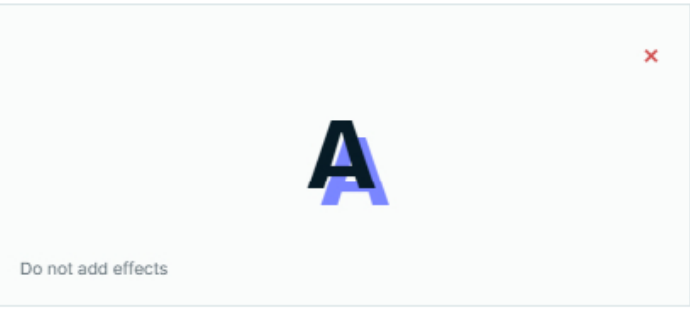
Solid Ink on light surfaces or solid White on Deep Navy.



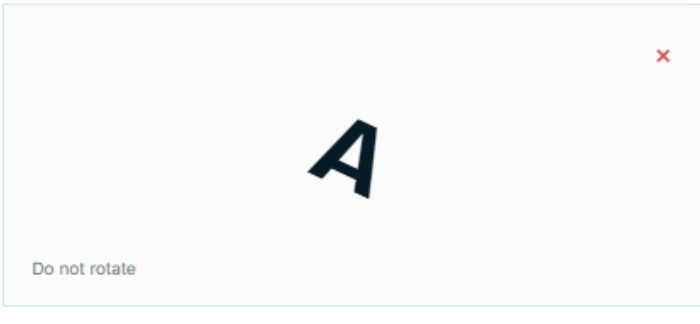
Do not stretch



Do not recolor



Do not add effects



Do not rotate

06 COLOR SYSTEM

Clarity meets imagination.

Aqua provides energy and action. Periwinkle adds creative intelligence. Deep neutrals create the precision and contrast that let both accents work.

PRIMARY ACCENT
Akviora Aqua
#5CE1E6
RGB 92 / 225 / 230
CMYK 60 / 2 / 0 / 10

SECONDARY ACCENT
Akviora Periwinkle
#7A86FF
RGB 122 / 134 / 255
CMYK 52 / 47 / 0 / 0

CORE DARK
Deep Navy
#071B26
RGB 7 / 27 / 38
CMYK 82 / 29 / 0 / 85

PRIMARY TEXT
Ink
#101417
RGB 16 / 20 / 23
CMYK 30 / 13 / 0 / 91

LIGHT SURFACE
Cloud
#F3F7F8
RGB 243 / 247 / 248
CMYK 2 / 0 / 0 / 3

BASE SURFACE
White
#FFFFFF
RGB 255 / 255 / 255
CMYK 0 / 0 / 0 / 0

RECOMMENDED RATIO

70% neutrals 20% aqua 10% periwinkle

SIGNATURE GRADIENT / 135°

#5CE1E6 0% → #7A86FF 100%. Reserve for hero fields, data accents, and key moments.

COMBINATION	RATIO	USE	STATUS
Ink on White	18.5:1	All text sizes	AAA
Deep Navy on Aqua	11.4:1	All text sizes	AAA
White on Periwinkle	3.3:1	Large text / UI only	AA Large
White on Deep Navy	17.7:1	All text sizes	AAA

Contrast ratios are reference targets based on the specified RGB values. Validate final production combinations with a WCAG 2.2 contrast tool, especially over images or gradients.

07 TYPOGRAPHY

Expressive by design. Clear by default.

Bricolage Grotesque is the primary brand voice across headlines, navigation, UI headings, campaigns, presentations, and social content.

Aa

PRIMARY TYPEFACE

Bricolage Grotesque

A variable grotesque with character at display sizes and clarity in interfaces. Use optical contrast through scale and weight—not decorative effects.

400 Regular 500 Medium 600 Semibold 700 Bold

STYLE	SIZE / LINE	WEIGHT	TRACKING	APPLICATION
Display / H1	72 / 70	600	−3%	Brand-defining moments
H2	52 / 52	600	−2.5%	Primary section titles
H3	36 / 40	600	−2%	Feature and campaign titles
H4	26 / 32	600	−1%	Cards and content groups
H5	20 / 26	600	−0.5%	UI panels and subheads
H6	16 / 22	600	0%	Compact headings
Body L	18 / 30	400	−0.2%	Lead paragraphs
Body M	16 / 26	400	0%	Default reading text
Caption	13 / 18	500	1%	Metadata and captions
Label / Nav	12 / 16	600	8%	Buttons, labels, navigation

DESKTOP ≥ 1200
Design with direction.
H1 · 72/70 · Semibold

TABLET 768–1199
Design with direction.
H1 · 56/56 · Semibold

MOBILE ≤ 767
Design with direction.
H1 · 42/44 · Semibold

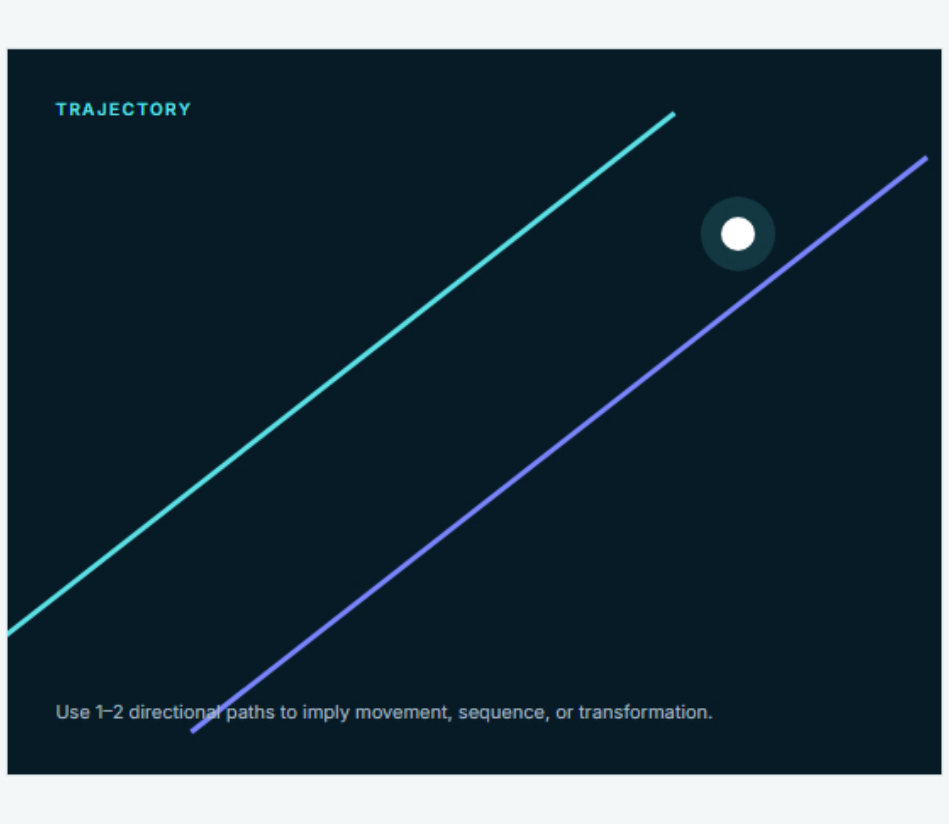
Body copy may use Bricolage Grotesque Regular throughout. If long-form editorial readability requires a complement, use Inter 400/500 only for paragraphs, tables, and dense SaaS interfaces; never substitute it in brand headlines.

08 GRAPHIC LANGUAGE

Signals of progress

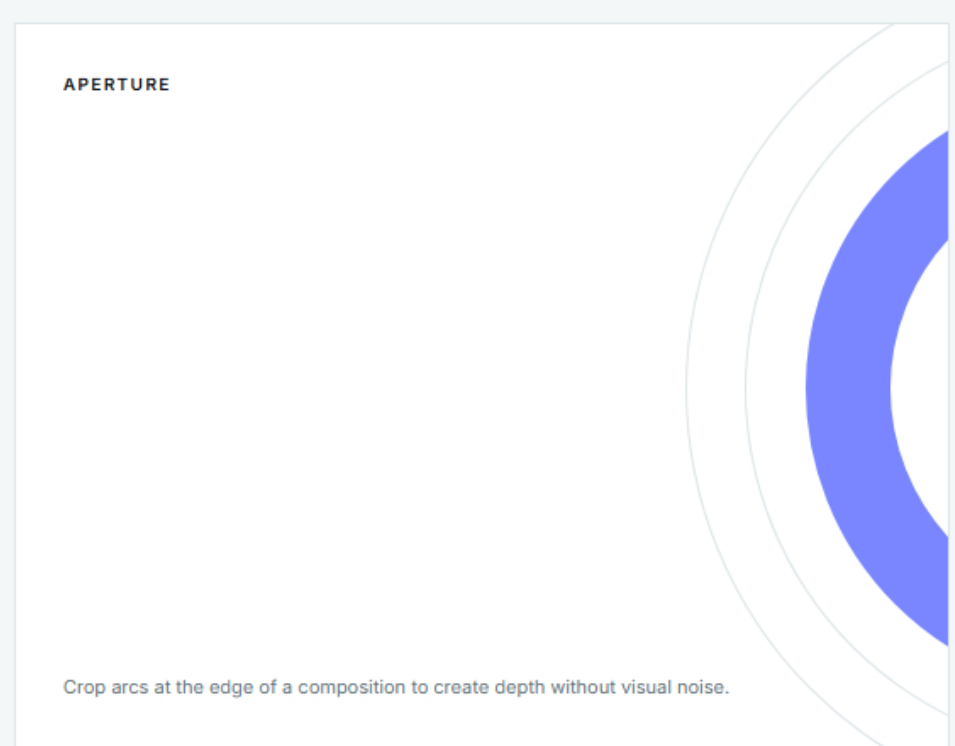
The system translates the logo's directionality into a flexible visual language: trajectories, nodes, and precisely cropped fields.

TRAJECTORY



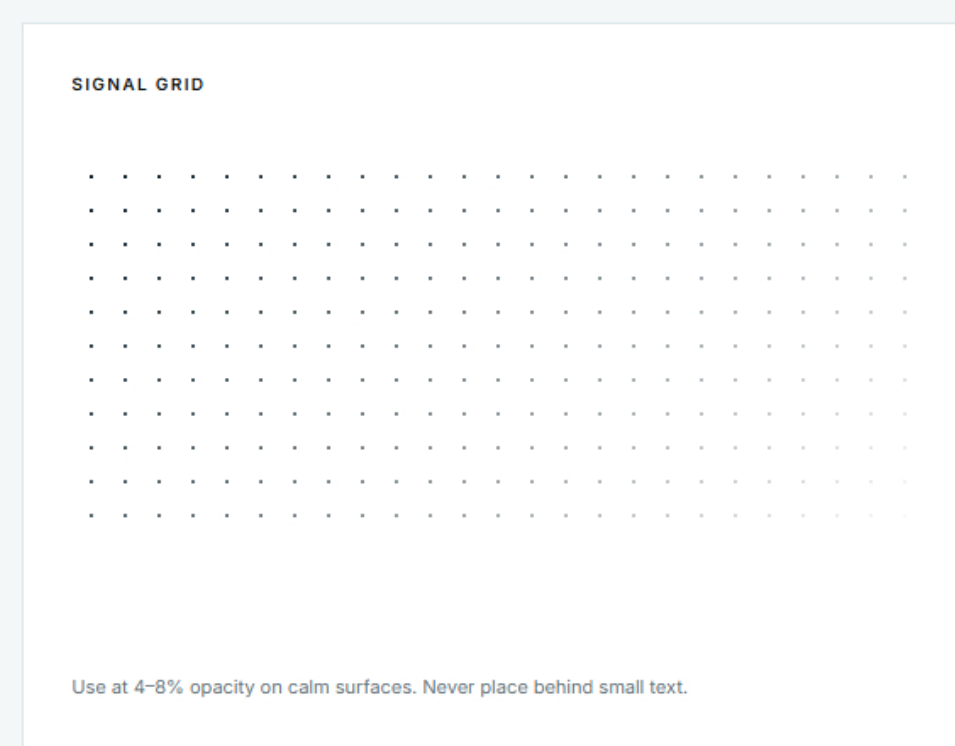
Use 1–2 directional paths to imply movement, sequence, or transformation.

APERTURE



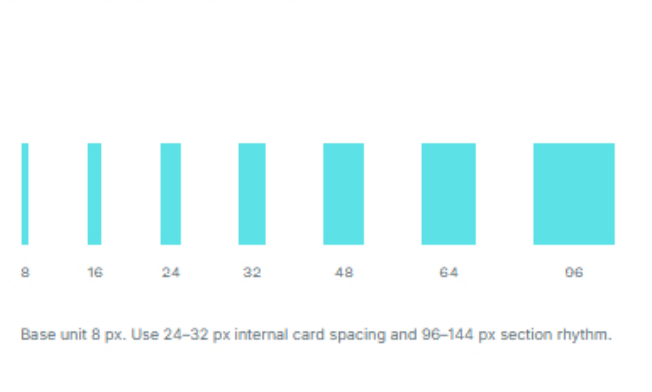
Crop arcs at the edge of a composition to create depth without visual noise.

SIGNAL GRID



Use at 4–8% opacity on calm surfaces. Never place behind small text.

8-POINT SPACING SYSTEM

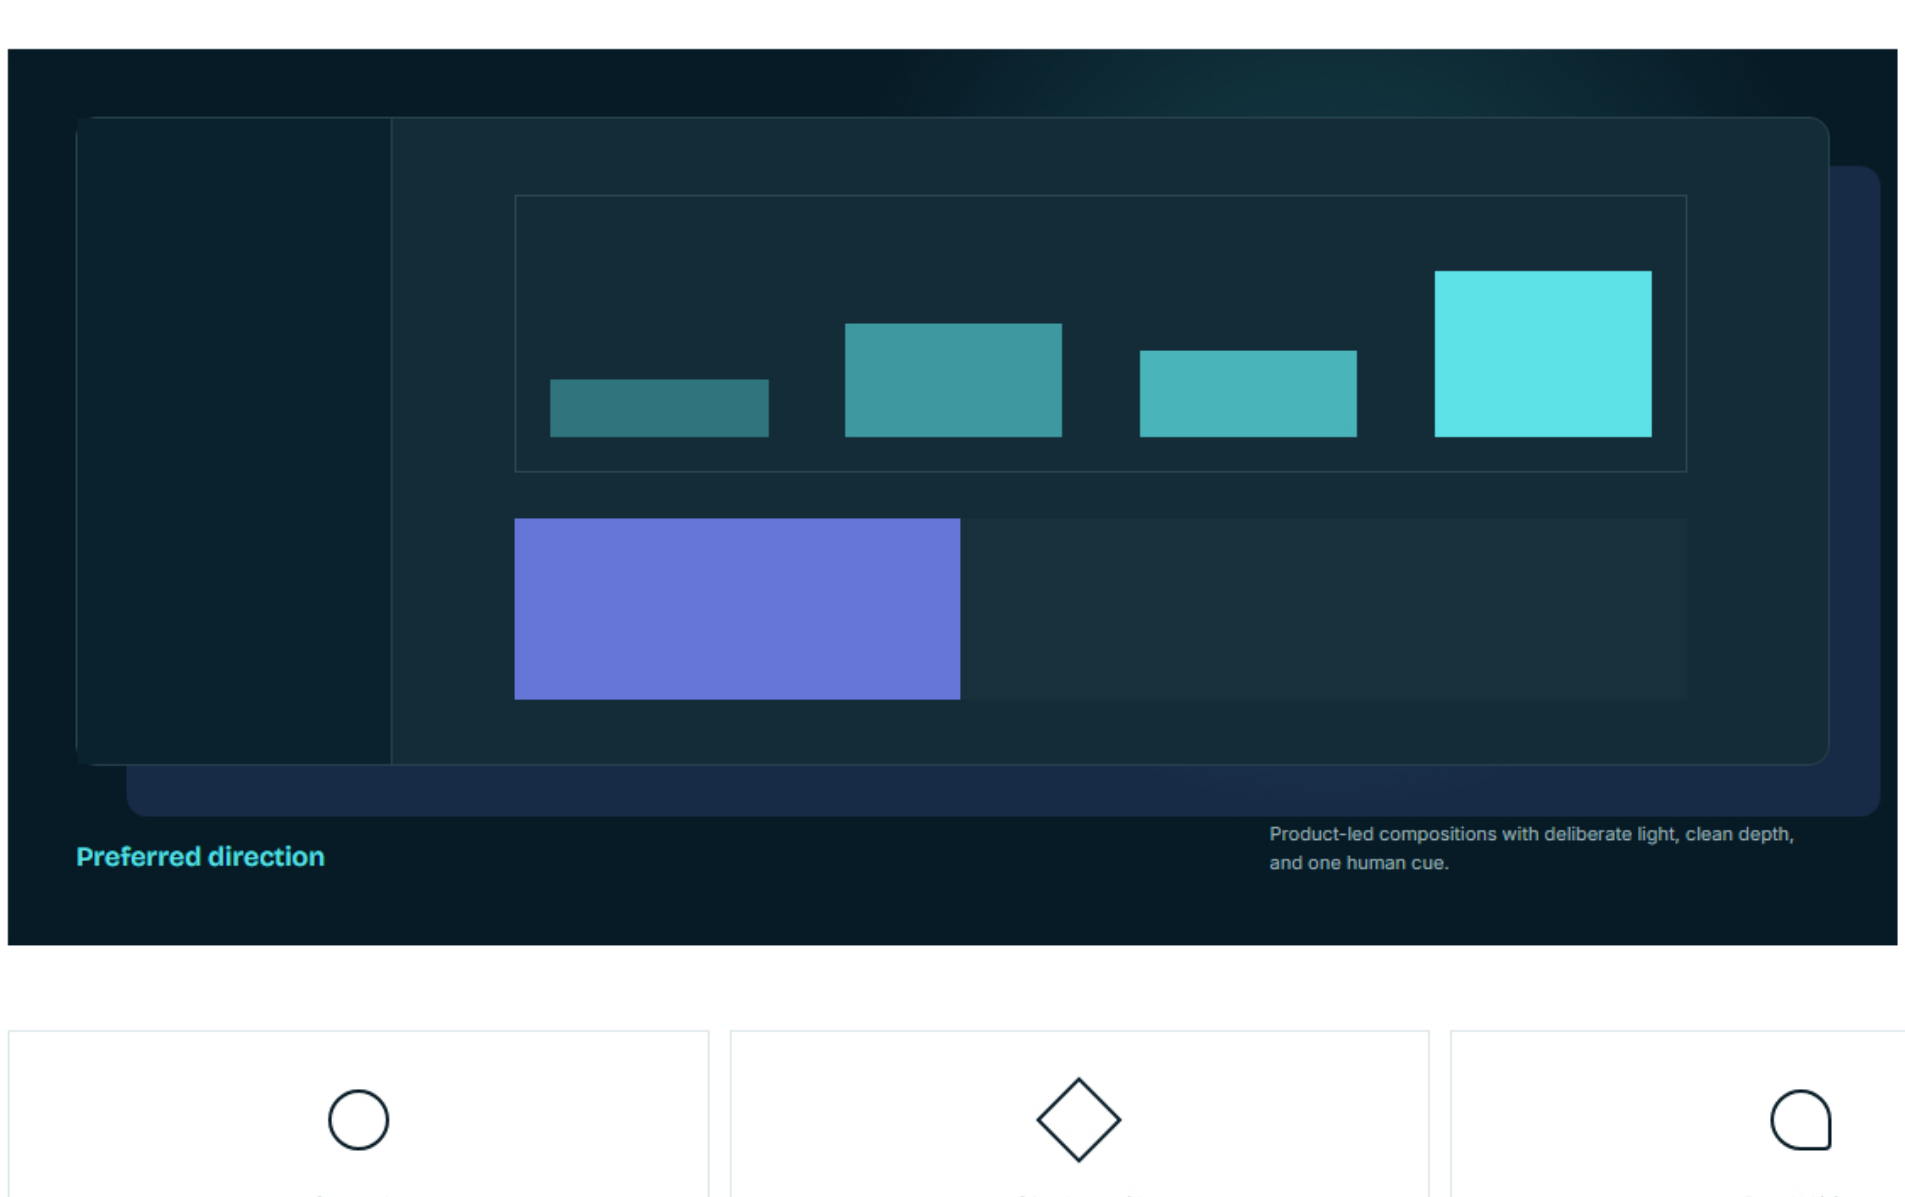


Base unit 8 px. Use 24–32 px internal card spacing and 96–144 px section rhythm.

09 ICONOGRAPHY & IMAGERY

Show real work, not technology clichés.

Prioritize authentic product screens, working sessions, and close human–technology interactions. The subject should feel capable, focused, and current.



Preferred direction

Product-led compositions with deliberate light, clean depth, and one human cue.

CHOOSE

Real interfaces, confident teams, material detail, natural expression, credible environments.

AVOID

Robot heads, glowing brains, handshake stock, neon code tunnels, staged excitement.

TREATMENT

Neutral grade, cool highlights, moderate contrast. Accent overlays at no more than 20% opacity.

○ 2 px stroke

◇ 24 px base grid

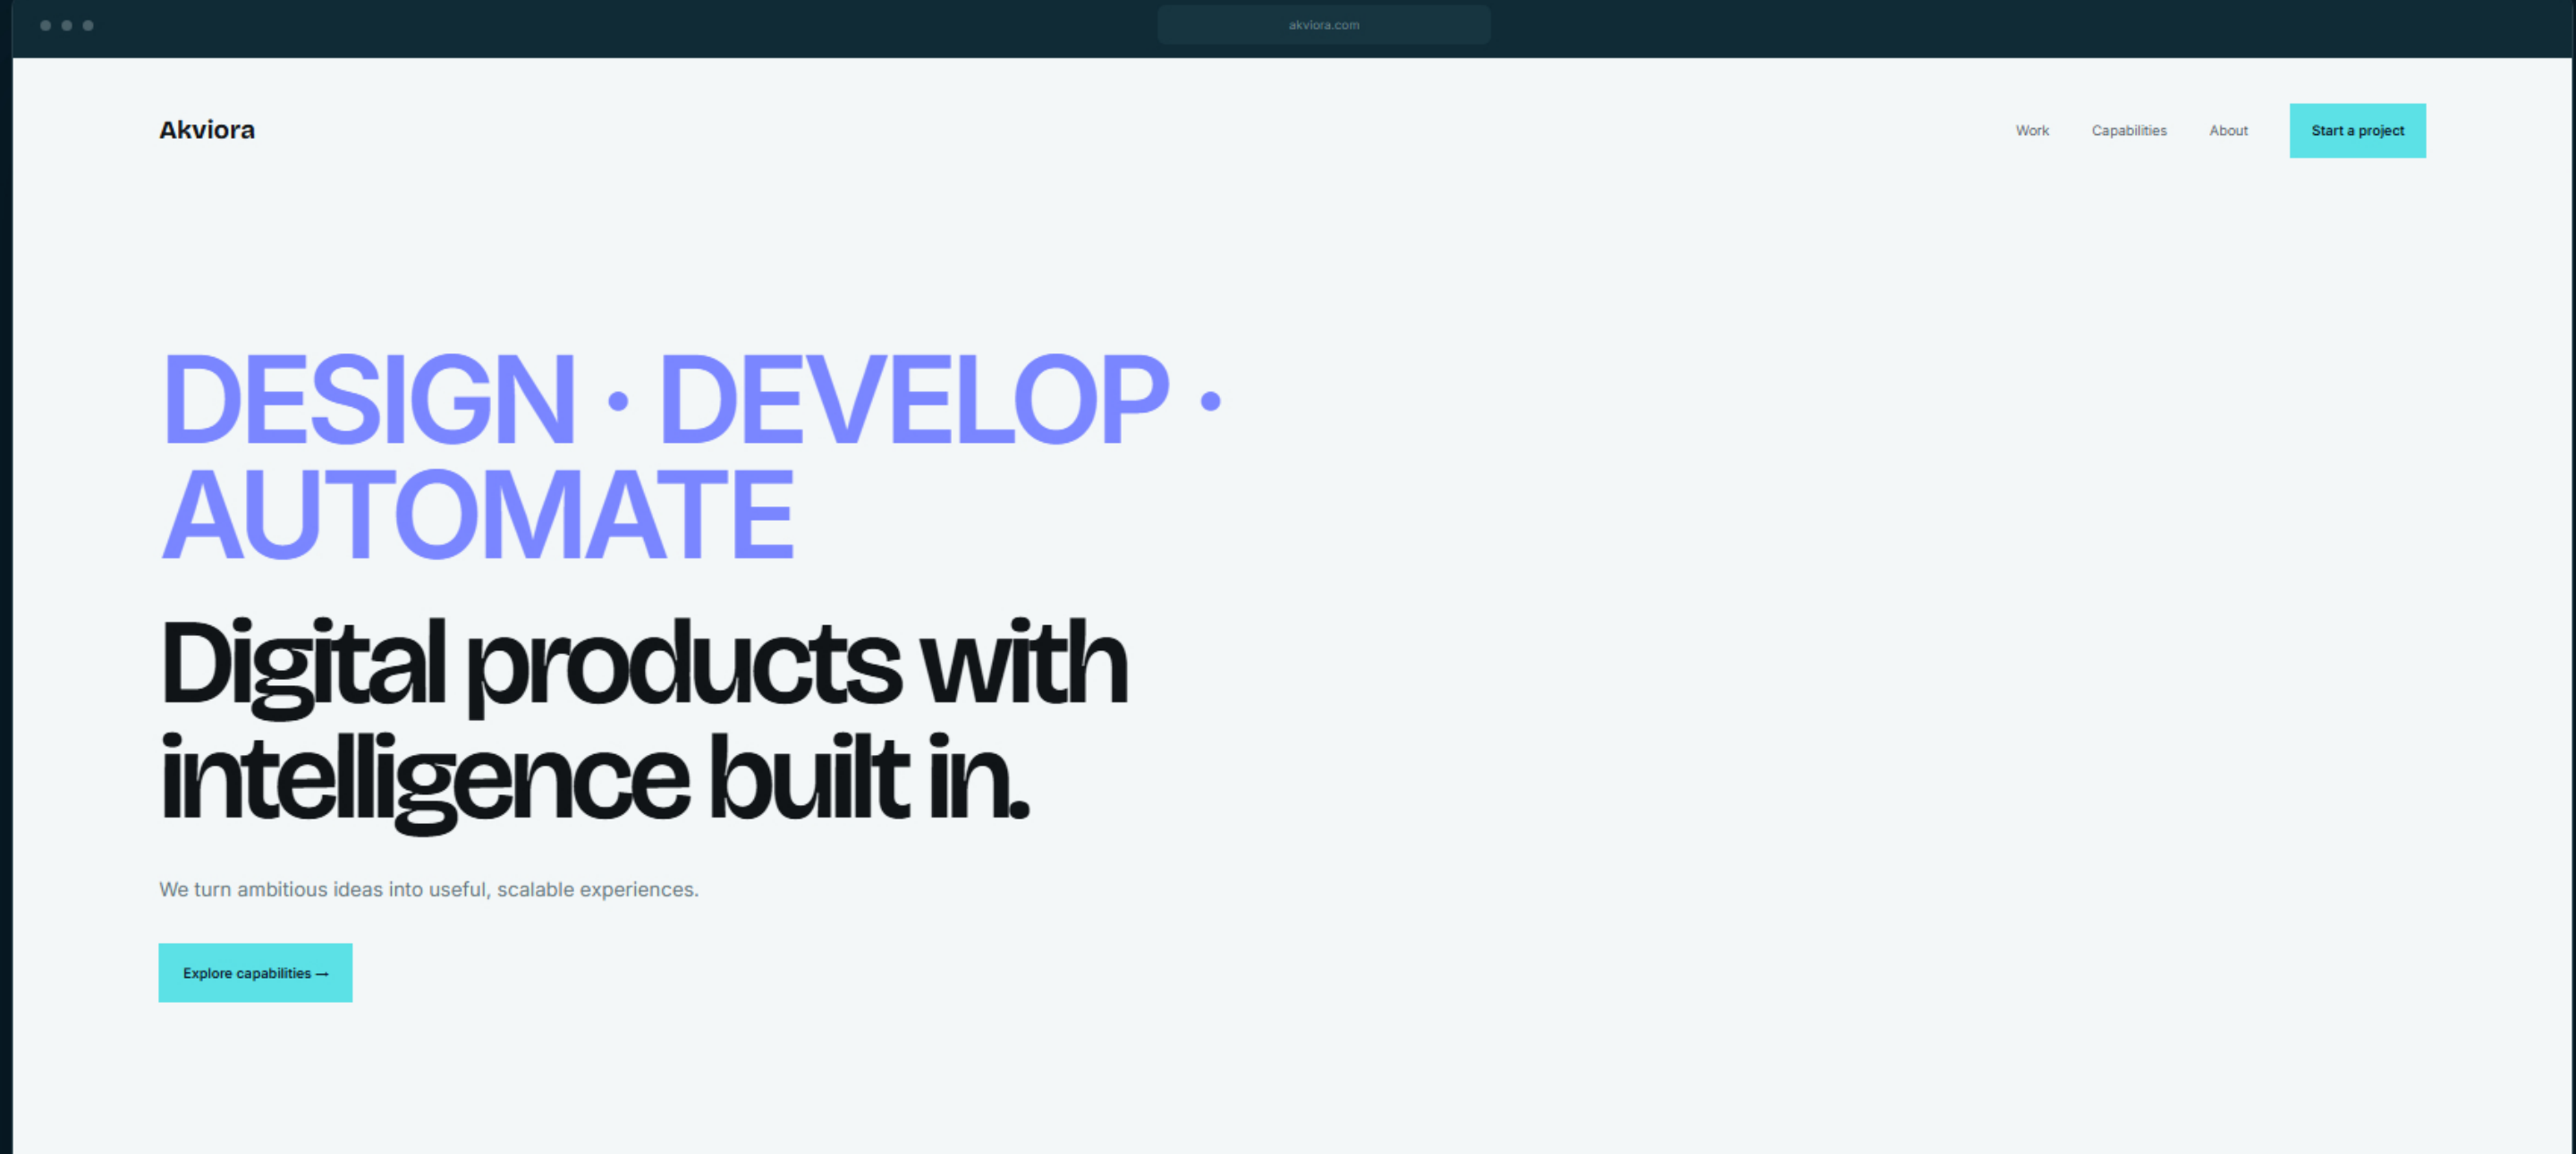
◯ Rounded joins

∨ One-color default

10 DIGITAL PRODUCT SYSTEM

A system built for momentum

Interfaces are spacious, direct, and tactile. Accent color communicates hierarchy; it never substitutes for structure.



DESIGN · DEVELOP · AUTOMATE

Digital products with intelligence built in.

We turn ambitious ideas into useful, scalable experiences.

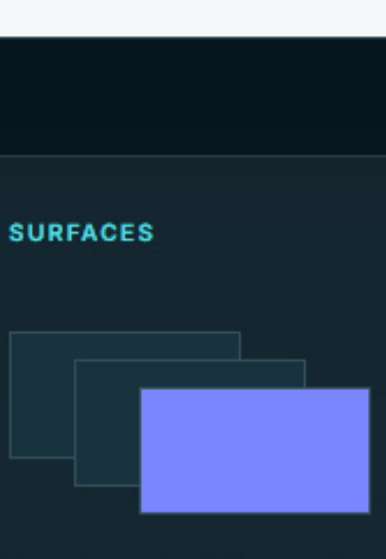
01 Strategy & product design

BUTTONS

Primary action Secondary

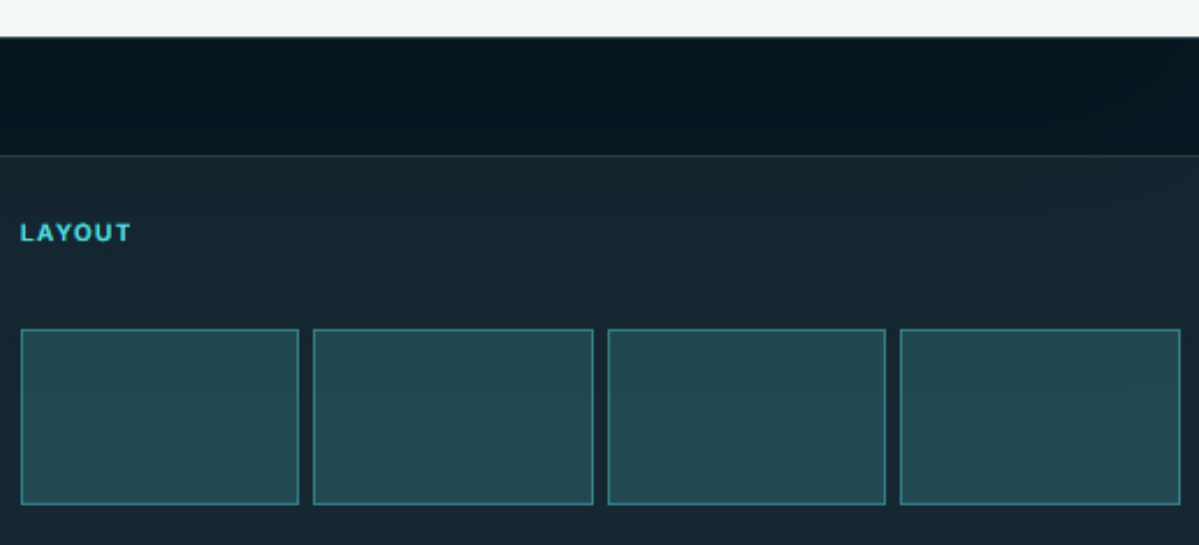
48 px target height · 16 px horizontal padding · 8 px radius.

SURFACES



One-pixel borders before shadows. Reserve elevation for interactive layers.

LAYOUT

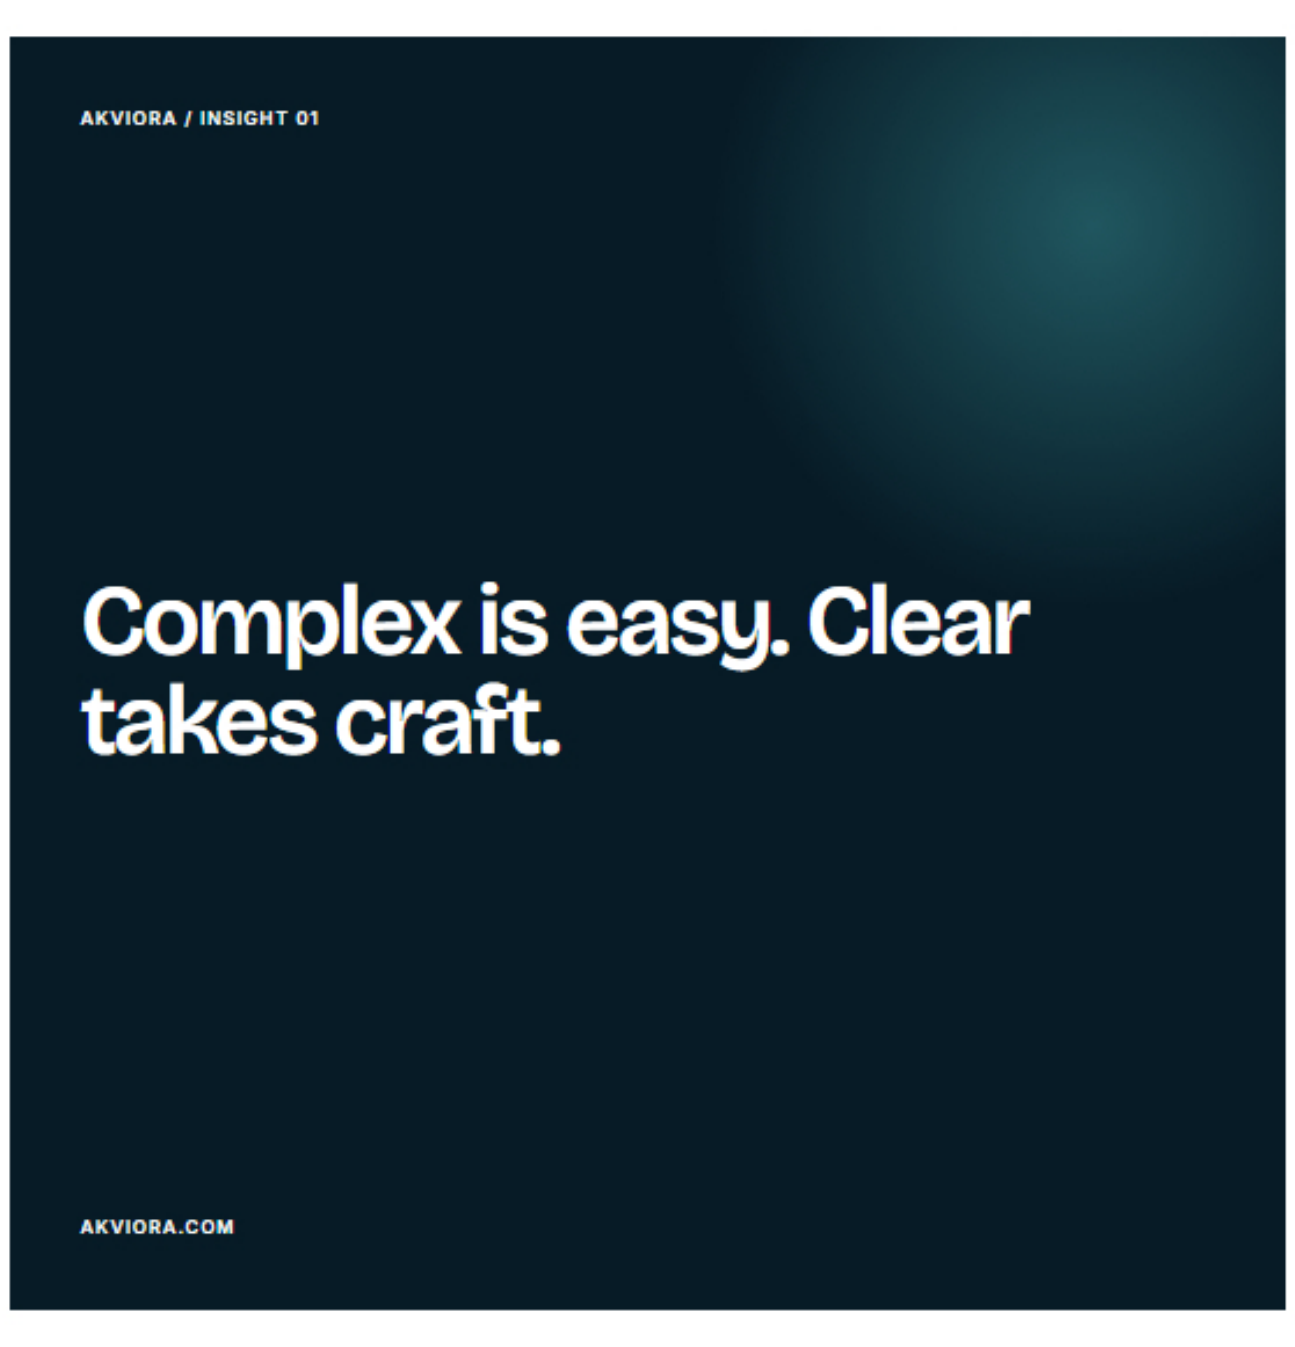


12 columns desktop · 8 tablet · 4 mobile. Max content width 1280 px.

11 SOCIAL IDENTITY

One idea per frame

Social content should stop the scroll through clarity, not clutter. Lead with a sharp thought, then support it with a single visual device.



AKVIORA / INSIGHT 01
Complex is easy. Clear takes craft.

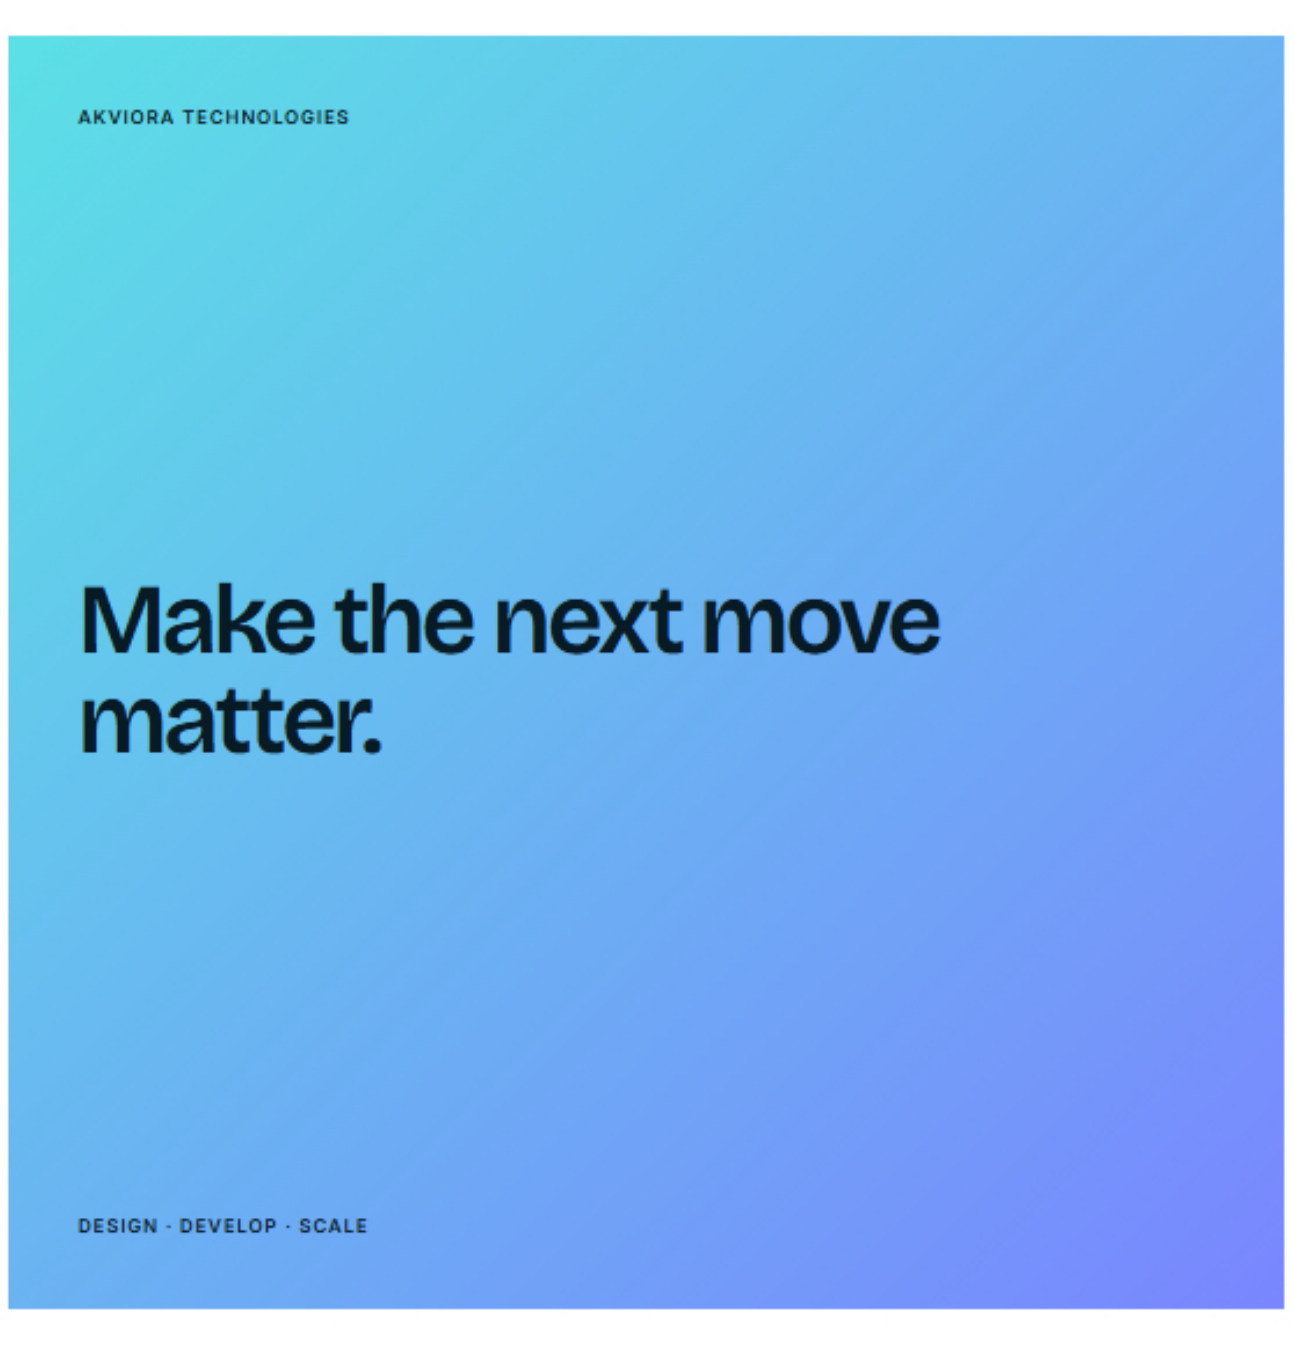
Ways to design better automation.
SAVE FOR LATER →

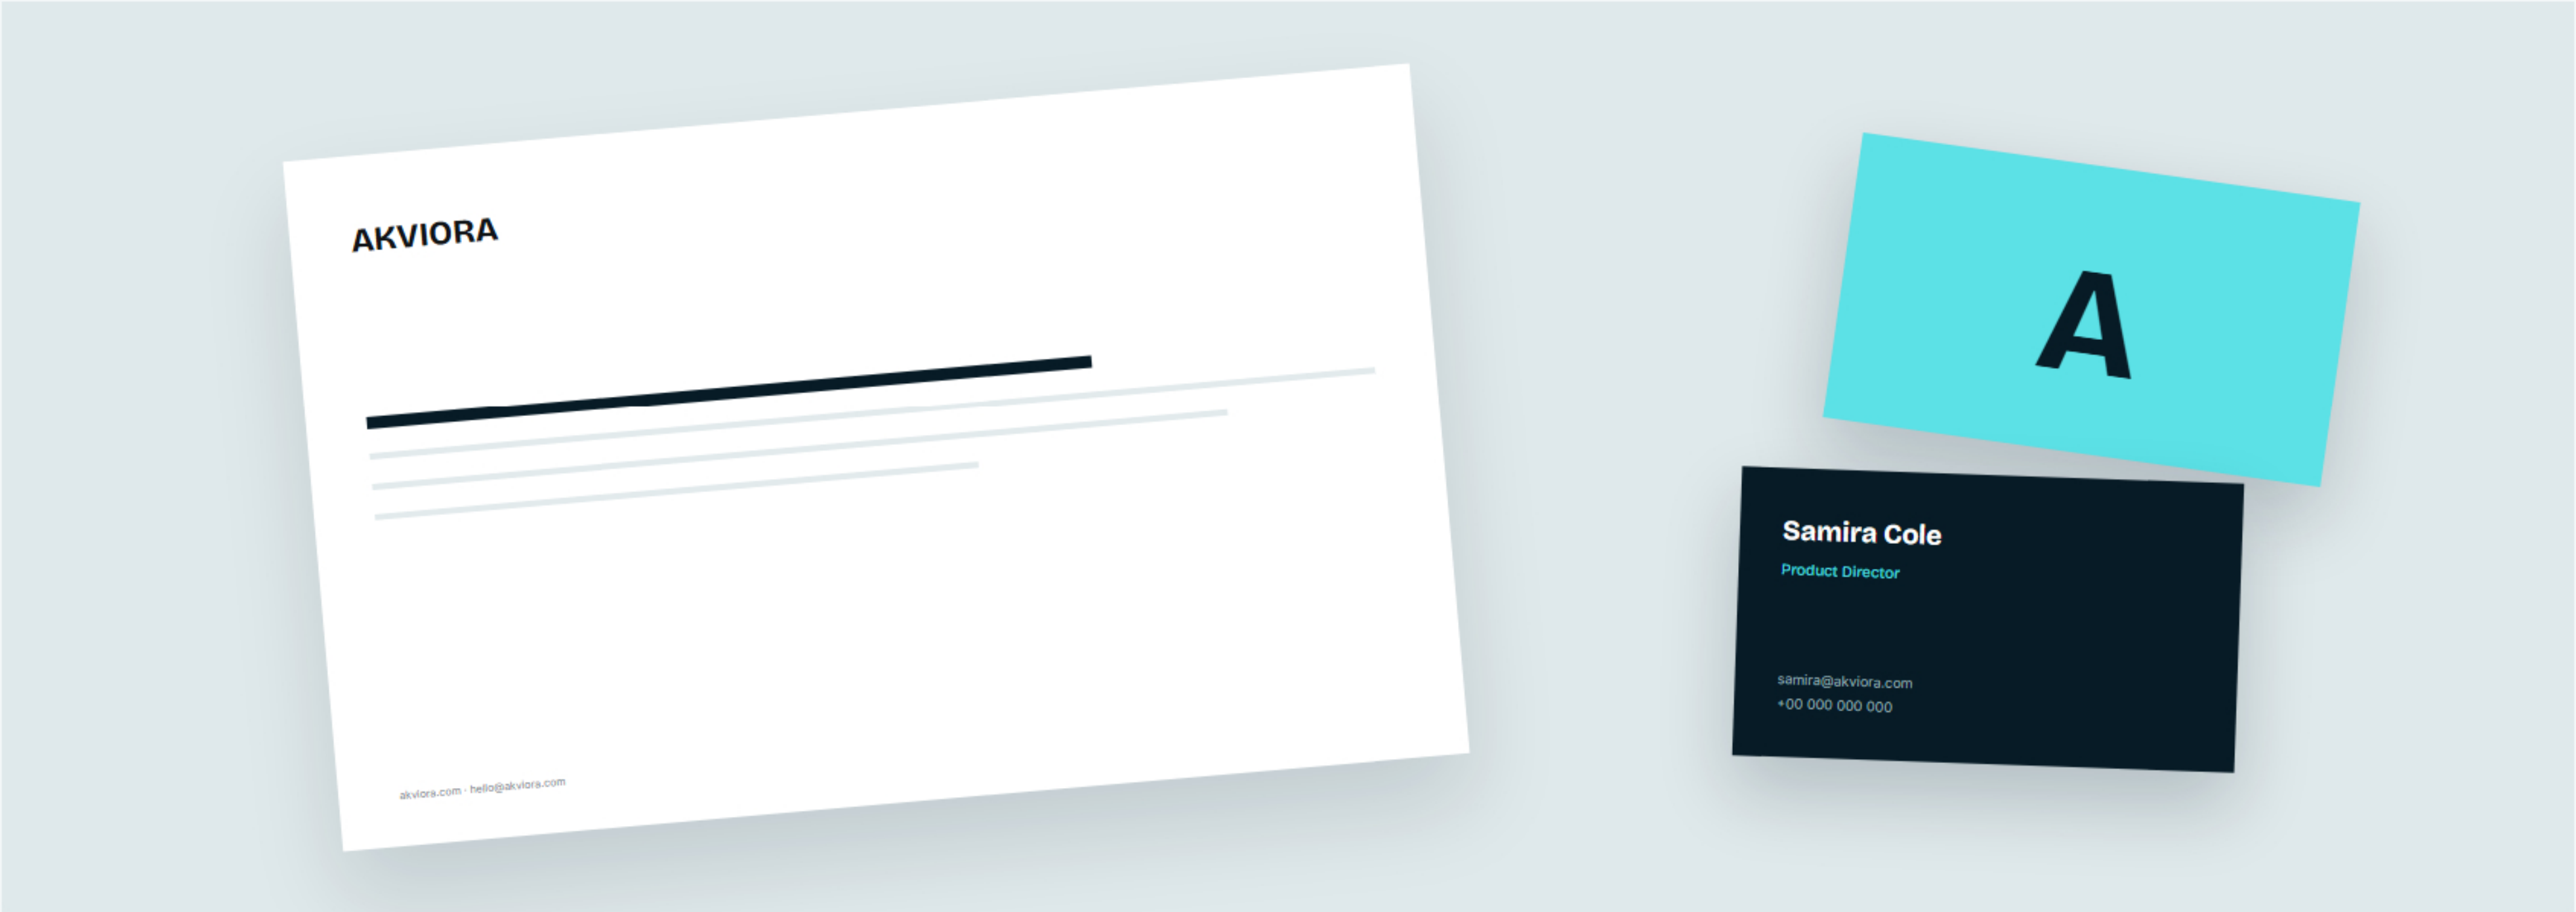


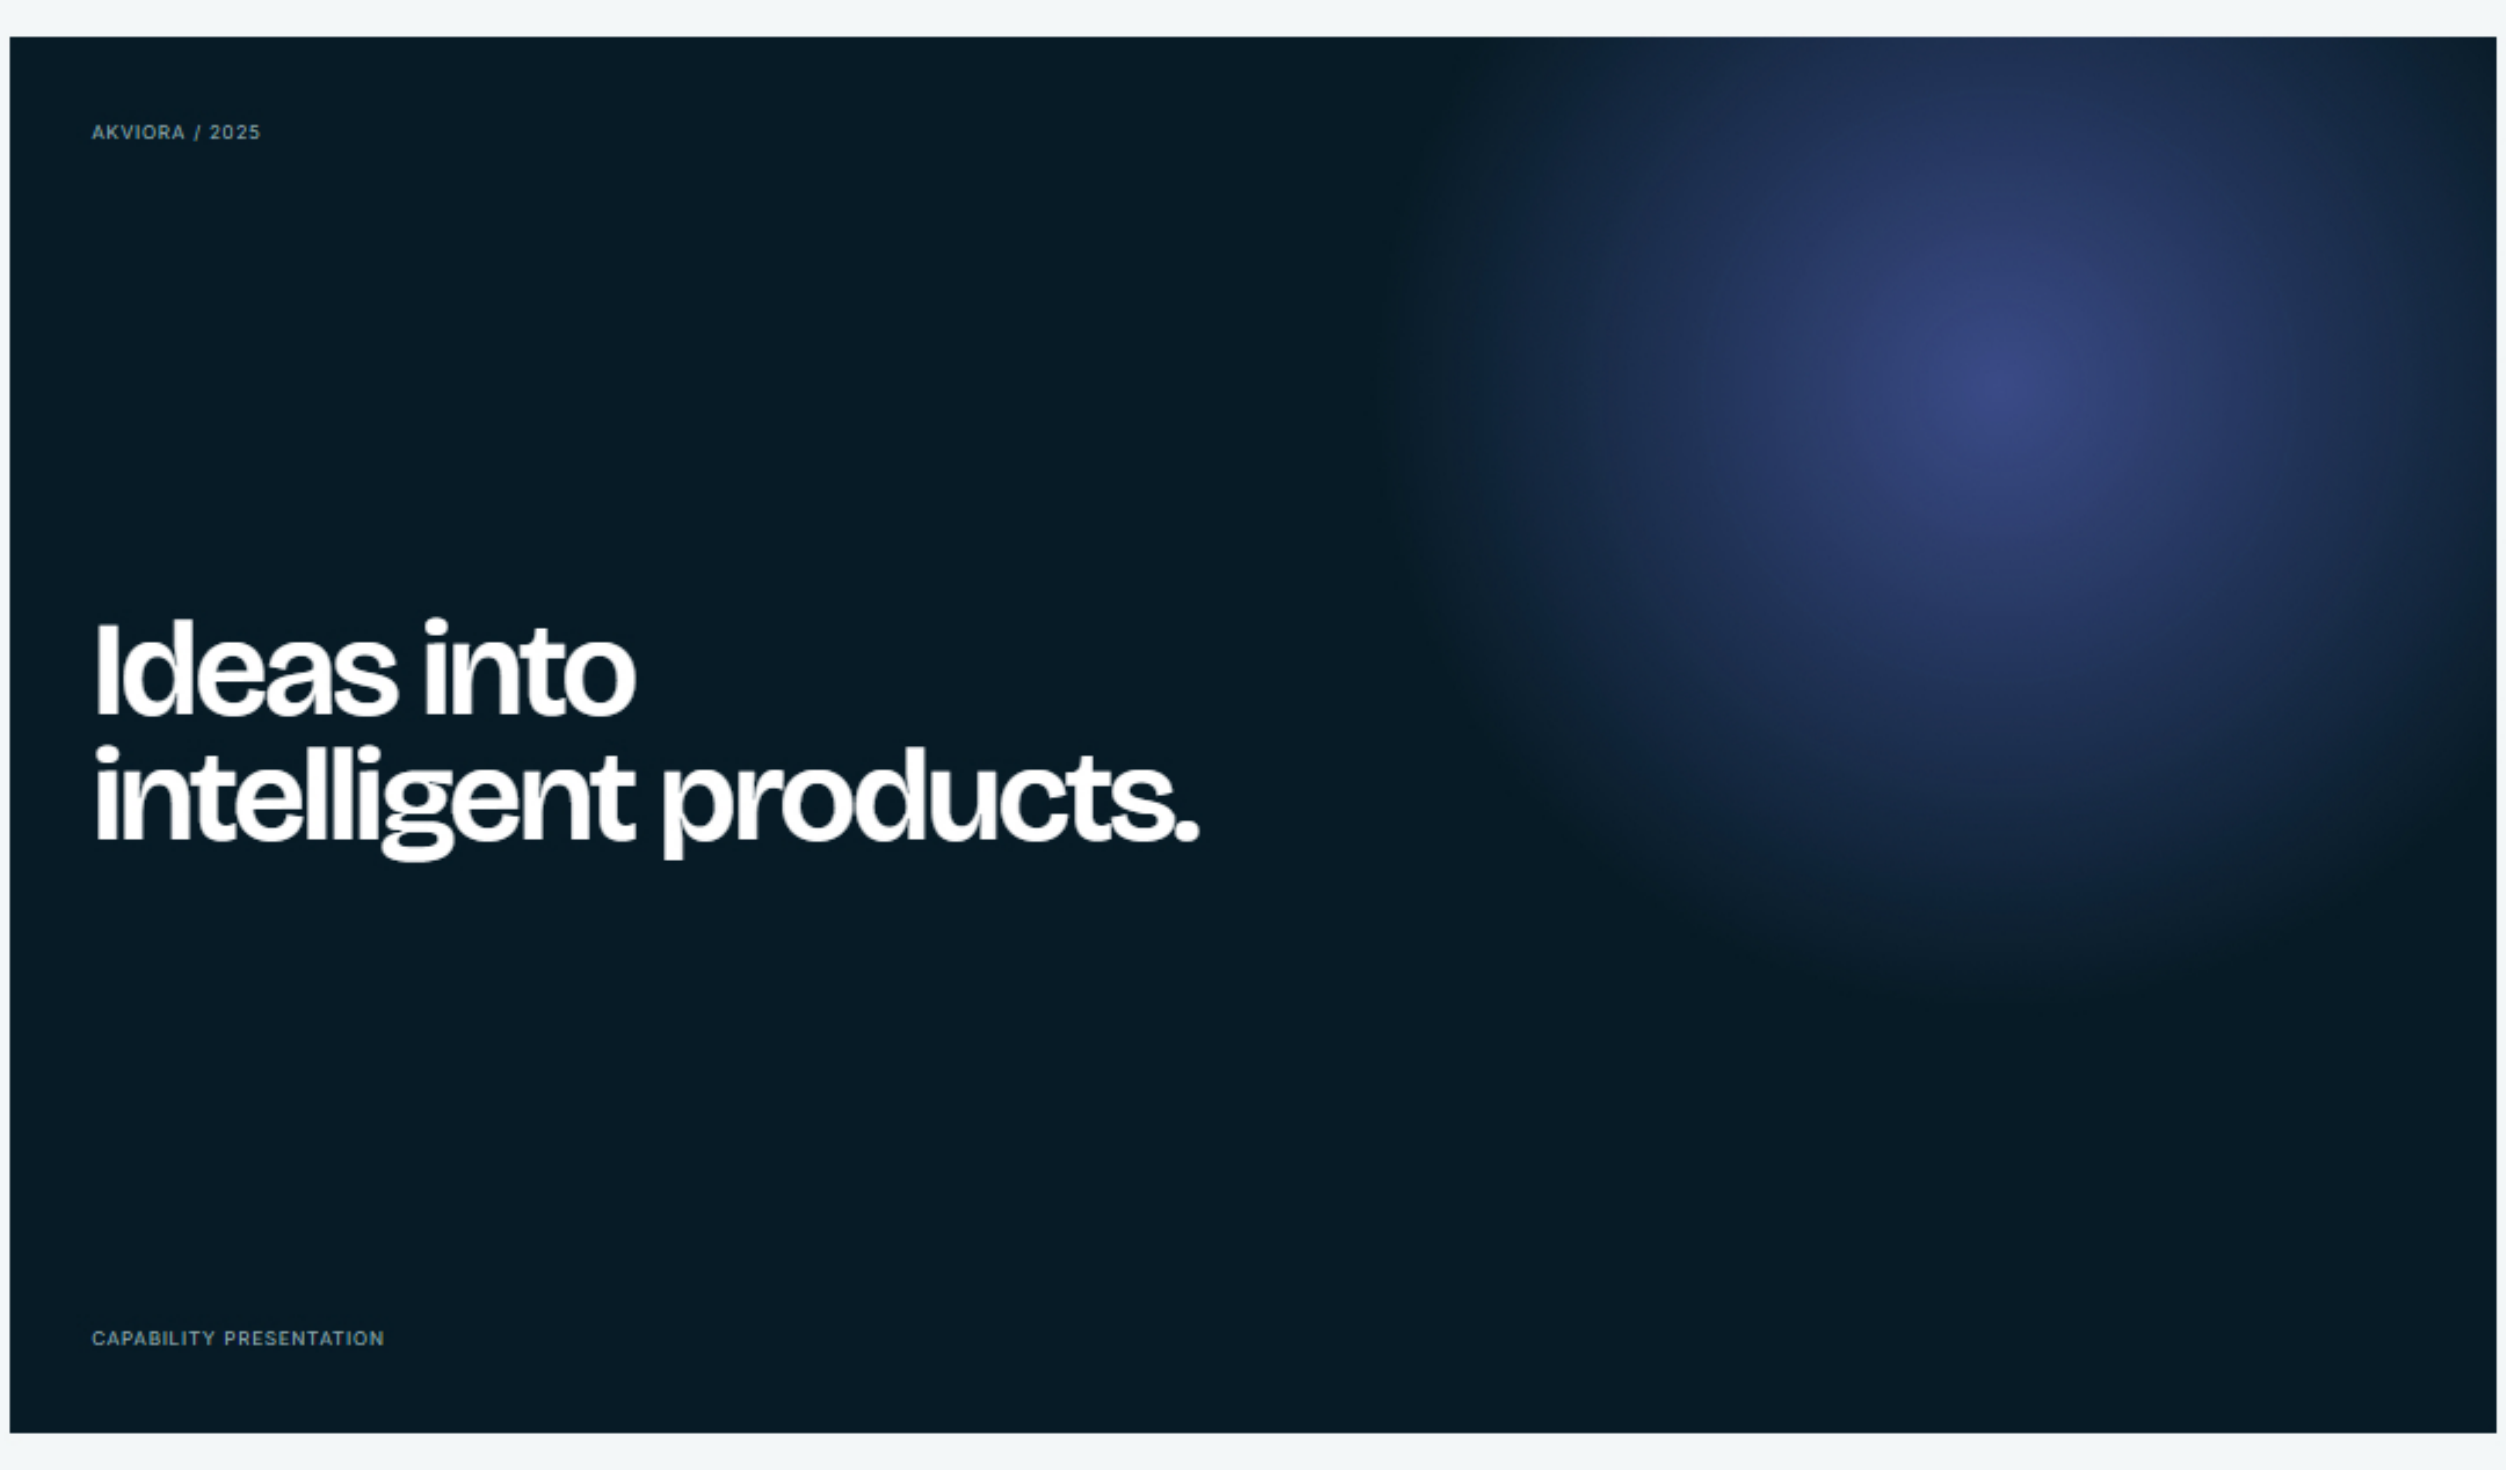
Square 1080 × 1080 Portrait 1080 × 1350 Story 1080 × 1920 Safe area 8% on all sides

12 STATIONERY & PRESENTATIONS

Quiet confidence in every detail

Business materials use generous white space, exact alignment, and one controlled accent. Information always leads decoration.





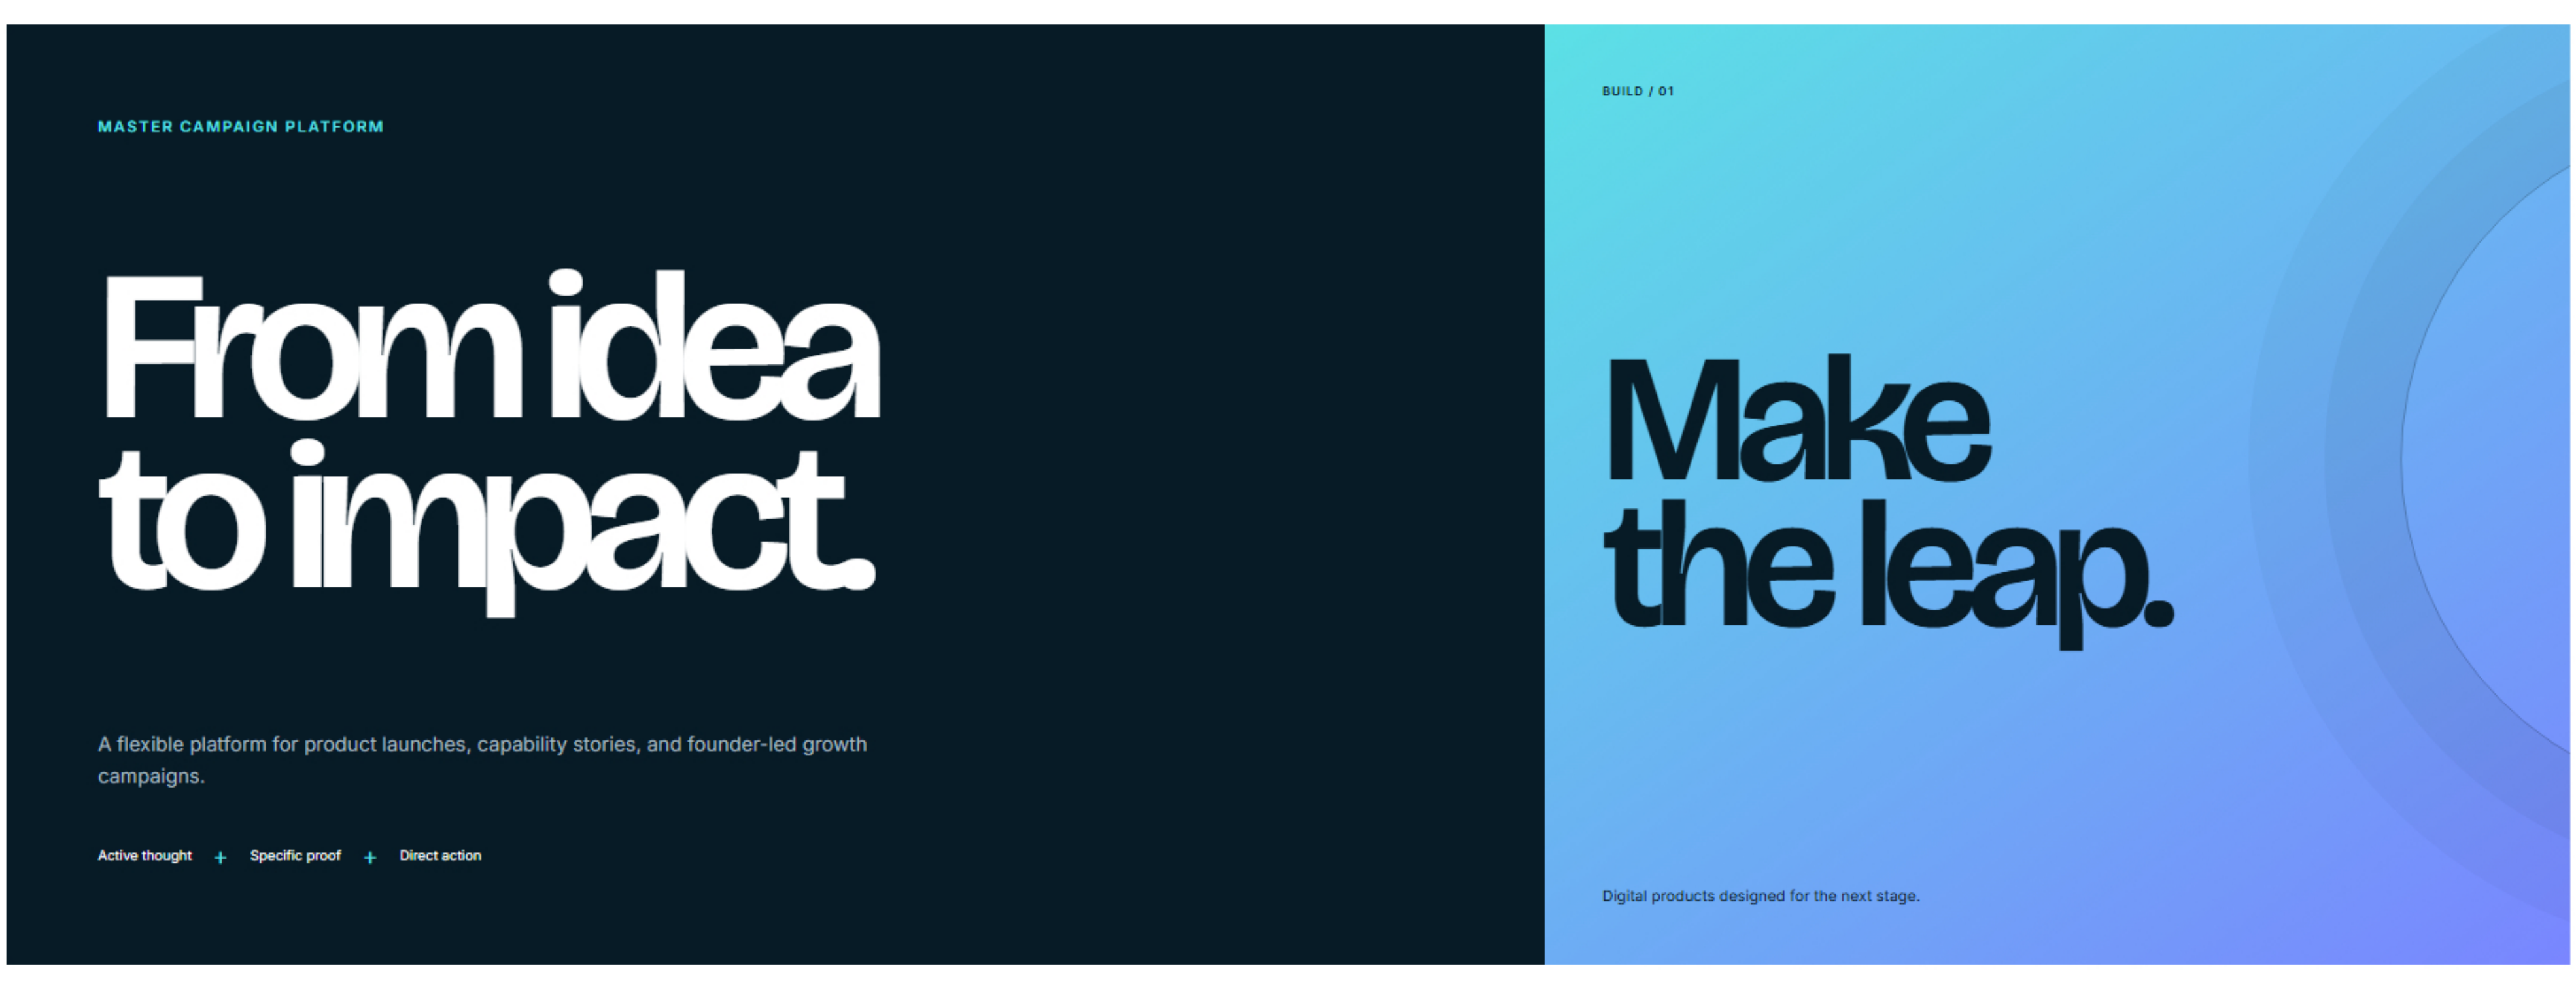
PRESENTATION STANDARD

- 16:9 format at 1920 × 1080 px.
- Maximum 60 characters per title.
- One core message and one visual proof per slide.
- Minimum body size 20 pt; minimum caption 14 pt.
- Use Aqua for emphasis, not full paragraphs.

13 MARKETING & ADVERTISING

Make progress visible.

Campaigns pair concise, active language with one strong visual signal. The idea should remain legible in under three seconds.



MASTER CAMPAIGN PLATFORM
From idea to impact.
A flexible platform for product launches, capability stories, and founder-led growth campaigns.
Active thought + Specific proof + Direct action
BUILD / 01
Make the leap.
Digital products designed for the next stage.

01	02	03
Awareness	**Consideration**	**Conversion**
Bold statement + recognizable signal	Problem, approach, and tangible proof	Specific offer + one direct call to action

14 CONSISTENCY CHECKLIST

Before anything ships

Every touchpoint should feel unmistakably Akviora: clear, progressive, crafted, and human.

- 01 **Logo** ☑ Approved master, correct clear space, no redraws or effects.
- 02 **Color** ☑ Exact accent HEX values; neutral-led ratio; contrast verified.
- 03 **Type** ☑ Bricolage Grotesque for all brand-defining language.
- 04 **Layout** ☑ 8-point spacing, clear hierarchy, generous negative space.
- 05 **Voice** ☑ Direct, specific, confident; no inflated claims or buzzwords.
- 06 **Imagery** ☑ Authentic product or people; no generic technology clichés.
- 07 **Accessibility** ☑ WCAG 2.2 checks for contrast, scale, focus, and motion.
- 08 **Proof** ☑ Facts are sourced; testimonials and achievements are never invented.

15 ASSET MANAGEMENT

A system that stays organized

Maintain one controlled source of truth. Working files and released masters must remain separate, versioned, and easy to identify.
